

## **Locker Tips**

- **When you arrive at school empty the contents of your backpack in your locker.**

**This will make it easy for you to fit your backpack in your locker.**

**It will make finding your materials for class easier.**

- **Clean your locker out weekly.**
- **Keep your lunch in your locker until it is time for lunch.**
- **Keep extra supplies like loose leaf paper, spiral notebooks, folders, pencils, etc. in your locker.**
- **Keep homework and handouts in your folders; do not let them float around your locker. This will ensure that you know where your homework is and you won't have to search your locker for it. It is hard for your teachers to grade homework that is folded up, ripped or wrinkled.**
- **P.E. uniform and gym shoes should be locked in your P.E. locker.**
- **Prepare your backpack the night before.**

**In the morning we have lots to do to get ready for school. By preparing your back pack the night before it is one less thing that you have to do during your busy morning routine. It will help you stay organize and ensure that have all your materials for your classes the next day.**
- **If you are not sure when to go to your locker throughout the day please see your grade levels locker schedule in this section.**
- **DO NOT GIVE YOUR LOCKER COMBINATION TO OTHERS!**
